

## **HVAC Technician**

**Full/Part-Time Available**

**Pay: Depending on experience**

We are a family owned and operated heating, air conditioning, and indoor air quality business located in the Celina/Prosper Texas area. At Custom Climates, we want our employees to feel they have a say in how we run our business and honestly believe that every person in our company has something extra valuable to add. If you hire the right people, the company will prosper, so we employ those who will make our customers feel well taken care of and create value for the company and its members. We hold meetings frequently to let every employee have the freedom to express what they feel could be better at the company, both in person and anonymously. We want them to feel a part of our family and be a part of our family and have fun in the process.

### **Responsibilities:**

- Ability to work on-call rotation and/or overtime to support the business,
- This role uses cutting edge software and technology, along with a variety of hand-tools, following blueprints or engineering specifications, to diagnose and repair units.
- Installing, testing, and maintaining HVAC systems and units
- You will also be responsible for end-to-end testing, starting up, commissioning, and servicing on assigned projects.
- Connecting low-voltage electric wire and components
- Troubleshooting systems and repairing/replacing parts
- Discussing systems, equipment, technologies, and problems with customers
- Balancing systems by adjusting system controls
